MARYIA KOSTSINA

QA Engineer

I'm passionate about testing and I want to connect my life with it. I have a great desire and motivation to start my career as a QA Engineer. I have the skills of analytical and critical thinking. I know how to handle a lot of tasks, and I have good time management skills. I'm following my goal despite all the odds. I like to learn something new and improve my skills, both personal and professional. I would be grateful if you take the time to review my resume and portfolio.
